Buckingham Palace

London SW1A 1AA

19 March 2024

Your Majesty,

## **Re: National Grid Grimsby to Walpole Proposal**

I am writing on behalf of Bilsby & Farlesthorne Parish Council in Lincolnshire. The Parish Council wishes to draw Your Majesty's attention to the proposed National Grid project to erect huge connector stations and eighty-eight miles of fifty-metre high pylons through Lincolnshire between the Wolds (AONB) and the Coastal area. I have attached a copy of our letter of objection which sets out some of the issues.

Only last year Your Majesty launched Natural England's new Lincolnshire Coronation Coast and the National Nature Reserve became the first in the King's Series. It was launched with the aim to support nature recovery and connect people with nature. The Parish Council believes the nature reserve will be directly and adversely affected.

The Parish Council recognises the need for increased and updated electricity supplies. However, it believes these objectives could be better served by an integrated offshore grid.

I have the honour to be, Sir, Your Majesty's humble and obedient servant

Kerry Culley

Parish Clerk  
Bilsby & Farlesthorne Parish Council
